Subject: Notice 2015-52

I am totally opposed to the so called "Cadillac Tax" on health insurance. It is outrageous to charge a 40% tax on the value of a policy over and above whatever you or the President decide is a "reasonable" healthcare policy. It sounds like what a socialist country would do. Shame on you for penalizing people who, by hard work, achieve a good job with good benefits and have as part of their compensation a healthcare policy you think is too good. Bah!
